Day 9-Breakfast. Meet Samar Magic Tours team. Today, we will visit the **Monument to the Mongol States** located on a hill overlooking the city of **Karakorum (Kharkhorin)**, on the bank of the **Orkhon River**. It was built in 2004. The monument consists of a large pile of stones (**a shamanic ovo**) carefully assembled into a cone shape, approximately the same size as a tipi, with nine posts protruding from the top. This structure is mounted on a stone and concrete platform and is surrounded by three walls that represent three sections of a circle. The outer sides of these walls feature three colorful mosaics representing three maps, one for each of the empires.

1. First, there was the **Xiongnu Empire**, a confederation of nomadic tribes that lived on the steppes from about the 3rd century BC. until the 1st century AD.

2. The **Turkish Khaganate Empire** followed, established by the Göktürks in 682 and lasting only until 744.

3. Finally, and famously, **Genghis Khan** founded the **Mongol Empire** of the 13th and 14th centuries.

The iconic place of the Mongol Empire in culture, combined with the shamanic symbolism of the **ovo** at the center of the monument, prompts people to leave offerings of vodka, milk, tea, rice and other edible delicacies that inevitably attract birds and some than another herd of goats and sheep passing by. You can also find several animal skulls around the monument, completing the surreal scene. It is no coincidence that **the Monument of The Imperial Map** is located in **Kharkhorin**, as this city (then called **Karakorum**) was **the capital of the Mongol Empire** under **‘Genghis’ Khan's successor, Ogedei Khan**. The Imperial Map Monument is a great vantage

point from which to look out over the city of **Kharkhorin** and the **Orkhon River**, and imagine what this collection of dirt roads and low-rise buildings may have looked like **in its glory days**. Also, today, we will visit to the legendary **Erdene zuu (Hundred Treasures) Monastery, the Turtle monument, and the Karakorum museum, to see the relics of the ancient capital of the Mongol Empire**. The **Erdene Zuu Buddhist Monastery** with its 108 stupas and the first Buddhist Lamasery (16th century) was the most important religious seat. Currently it constitutes an impressive sight, with its walls, stupas and temples, occupying an enclosure of 400 square meters, and surrounded by the steppe. The construction was continued by his son '**Ogedei Khan**', after his death. After 40 years, '**Kublai Khan**' (grandson of '**Genghis Khan**' and host of **Marco Polo**) moved the capital of the Empire to Beijing (**Peking-Yuan dynasty**), already invaded. In the year 1792, there were 62 temples left and more than 10,000 Lamas. In the year 1930, the Stalinist purges destroyed most of their temples and the Lamas were banished to die in Siberia. Of its more than one hundred temples, only three have survived to our era, **it remains the most outstanding cultural vestige of Mongolia**. Overnight in tourist Gers camp. **(B)(L)(D)**

Day 10-Breakfast. Meet Samar Magic Tours team. Departure in the direction of the **Tsenkher Hot Springs Resort** (about 120 km / 75 miles, + 2.30 hours), located near the **Khangai mountains and in a forested area**, in the province of Arkhangai. These hot springs are sulphurous springs that flow at a temperature of more than 80 degrees, allowing visitors to enjoy an open-air spa in the middle of nature. These waters are appreciated for their healing properties. One hour of **relaxing baths in the Tsenkher hot springs**. In this area there is a presence of nomadic families where they graze with their herds of horses, yaks, sheep, bulls, etc. Overnight in Tourist Gers Camp. **(B)(L)(D)**

Day 11-Breakfast. Meet Samar Magic Tours team. Today, departure via Karakorum by asphalt road (*with the help of the Turkish Government) in the direction of the **Gokhturk museum in Khoshoo Tsaidam (Turkish Memorials)**, about 197km/122.41 miles, 3.5-4.0hrs) in honor of the Turkish princes in the **Orkhon Valley** (about 47.2km/30miles, 1hr from Karakorum), from the early **8th century Bilge Khan and Kul Tigin** with their Orkhon inscriptions, written in the **Old Turkic alphabet**, which are admitted as the most impressive monuments of **the nomadic Gokturk Khaganate**. They were excavated and deciphered by Russian archaeologists in the years 1889-93. Next, departure by embankment (off road) towards **Lake Ugii** (about 32.3km, 1hr), an appropriate place for birds such as: swans, geese, cranes, ducks, pigeons, storks and other migratory species are cited in this area at the end of April, May and throughout the summer). **Lake Ugii** is located in the province of Uvurkhngai, where many migratory birds arrive at certain times of the year due to the abundance of fish. It is of great importance as a breeding and stopping place for waterfowl, for example, the white-necked crane (*Grus vipio*), the swan goose (*Anser cygnoides*), the great bustard (*Otis tarda*), the duck (*Oxyura leucocephala*), cranes common (*Grus Grus*), demoiselle cranes (*Anthropoides virgo*), black storks (*Ciconia nigra*), and species declared vulnerable or endangered in the Red Book. We will be able to admire and photograph a great variety of species such as the White-necked Crane and the Monk Crane surrounded by a beautiful valley where herds of sheep, horses, bulls, and yaks graze. Over 200 species of birds have been recorded at **Lake Ugii**, and where there are so many fish there are sure to be plenty of waterfowl; black-tailed godwit; Swan goose; Great

Crested Grebe; whooper swan; Bar-headed goose; Rudy Shelduck; common goldeneye; Common Crane; and Northern Lapwing. Migratory birds arrive from May to June, from as far away as Siberia and the Himalayas. We visit the **Ornithological local museum for observation**. Continuous drive further to **Karakorum** (about 80 km/50 miles). Overnight in Tourist Gers Camp in **Karakorum**. **(B)(L)(D)**

Day 12-Breakfast. Continuous drive further to explore **Hustain Nuruu National Park**. The Takhi is the last species of wild horse left on the planet. In 1878, the Polish-born Russian geographer and naturalist **Nikolai Mikhailovich Przewalski** found a new species of wild horse in Mongolia, known locally as Takhi, and took several foals to European zoos. The only way to prevent the complete extinction of the last species of wild horse was to reintroduce it into the wild. In 1975, the **Dutchman Ian Bouman and his wife**, and other entities that joined later, created the **Foundation for the Conservation and Protection of the Przewalski Horse (FPPPH)**, with the aim of saving the Tahki from extinction through acclimatization. of the zoo specimens in open field pastures, for later release into the wild. In 1992, the FPPPH brought the first **15** horses to the Hustain Nuruu area in Mongolia, to reintroduce them to their original habitat. Currently, the population of takhi in the wild in Hustai Nuruu National Park reaches **220** individuals. The practice of taming wild animals and then returning them to the wild is truly rare. Visit to a small museum, about the history of the **Hustain Nuruu National Park**, about the founders, and the reintroduction of the Przewalski or Takhi wild horses in their original habitat. **Excursion through the interior of the Hustain Nuruu National Park, exploration and observation of wild horses (*bring binoculars and drone).**
